

CHAIN BLOCK (VITAL)

Manufactured in Japan using optimum high quality steel and designed for long-term use while providing the lowest possible per-use cost. These chain blocks can be supplied close coupled and extra close coupled to girder trolleys to alleviate headroom restrictions.

Features:

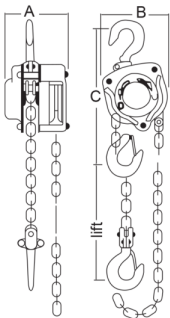

- Optional overload protection
- Customised lift heights are available upon request
- Quality caged needle bearings
- Load chain exceeds Australian Standards with 5:1 Safety Factor

Applications:

- Suitable for industrial, rural, shipbuilding, construction and mining industries

Specifications:

- All Vital models are manufactured to comply with the strict JIS & ISO regulations and AS1418.2
