

MOBILFIX TERMINAL

The MOBILFIX is a removable anchor point for regularly recurring tasks, such as window cleaning. Only the MOBILFIX TERMINAL is permanently installed at the point of use.

The MOBILFIX TERMINAL is virtually flush with the surface in the wall or the ceiling and is sealed through the interior spring plug. Thus, dirt cannot penetrate and visually it is inconspicuous.

For tasks the MOBILFIX is temporarily arrested in the MOBILFIX TERMINAL. Thanks to the patented shape of the MOBILFIX, it prevents the carabiner on the fastener from abrading or fouling the wall.

FEATURES

Max. number of persons	3
Area of application	Construction, Roofer, Carpenter, Facade, Window Cleaning
Size	131mm
Weight	0.25kg
Material	Stainless Steel, Acrylnitril-Butadien-Styrol
