

LEVER BLOCK KITO L5

The L5 Series Lever Hoist from KITO offers the largest range of capacities in the market that best suit your application.

Lightweight, compact and designed for heavy-duty work in the most rigorous and demanding applications. All models feature the patented 'free-wheel safety brake mechanism' and nickel plated load chain.

- Optional lift heights also available.
- Compact and portable the 250kg and 500kg capacity units are an ideal Lever Hoist for lifting, lowering or positioning of loads that can be carried and stored in your toolbox.
- 250kg Capacity Unit supplied with polyester carry case for belt attachment.

CODE	WLL (tonnes)	WEIGHT (kg)	STANDARD LIFT (m)	HAND EFFORT TO LIFT LOAD N (kg)	HANDLE LENGTH (mm)	HEADROOM MIN (mm)
